Sylvie Guieysse' new Pillow and Home Accessories Creations  
-More details on [www.sylvie-pillows.com](http://www.sylvie-pillows.com)-**

Like all works of arts, Sylvie Guieysse collection of pillows, table runners, and tapestries consists of unique pieces, all are entirely designed and hand made by the artist herself in her New-York workshop.

Sylvie Guieysse takes her inspiration from Japanese, French and Central Asian traditional crafts.

The results are colorful and vibrant pillows, which feature stylized birds or Toile de Jouy characters placed into contemporary and dynamic compositions.

Like paintings, these beautiful pieces fit within most interiors, bringing additional sources of brightness and warmth to sofas and armchairs.

More recently, she also developed a line of scented sachets, delicately perfumed with natural lavender or rose.

Sylvie Guieysse was born in Paris, France, where she studied style and design. Attracted by traditional costumes, her passion flourished during her numerous stays in the legendary cities of Samarkand and Bukhara, main legs of the Silk Road. It was on these trips that she discovered the original craft of Asian tapestries.

Sylvie designed theatre costumes for French directors, providing her with the opportunity to explore a broad range of styles and techniques.

Sylvie launched her Couture line in Paris, for which she developed 8 collections, fine-tuning a very personal style, a fusion of influences, bright colors, and geometric lines. Attracted by the motive more than the shape, she decided to focus her creation on home accessories, such as pillows, for which the shape is given. This allows her to put emphasize on colors and patterns.

Sylvie has been living in Dumbo - Brooklyn for 4 years with her husband. "I love the City for all it brings to me: energy, diversity, creativity, and a constant optimism".
