**Electric Birds Pillows**

- \$40
- Sylvie Pillows

Many things get sent to our office, most of which do not bear commenting on, but one of these beautiful pillows arrived last week and it totally does. Sylvie Guieysse, who is French and based in Brooklyn, launched her business, Sylvie-Pillows, in 2007. Her new collection, Electric Birds, features really bold, saturated colors in a unique mix of vintage and contemporary designs. I like the one above, with the faux wood background.
